“So, I Was Talking to My Buddy Jack”

Jack on Crime: The other day Jack and I were out walking and Jack looks up and says, “Dad, I heard on the TV the police report an entire semi-tractor trailer load of Viagra was hijacked this past week.” Then he laughed and said, “I hear authorities are on the lookout for a group of ‘hardened’ criminals.”

Jack on Politics: “Dad, if you rob a bank in a Sanctuary City is it illegal or just an undocumented withdrawal?”

Jack on Obama Care: “Dad, they say there are currently 11 million people on Obama Care and if we abolish it, the news people say 24 million people will die. I’m wondering why will there be 13 million more people die than are even on the plan. Are they going to shoot the extra 13 million?”

Jack After Watching the Superbowl Halftime Show: “Dad, the way J Lo and that other lady were bumping and humping with those guys do you suppose they were in heat?” I laughed and assured him that was not the case and told him I had heard they were just acting out a little known African fertility ritual.

Jack on Capitalism vs Socialism: “Dad, have you ever heard of anyone from a Capitalist country trying to ‘escape’ to a Socialist country?” Then he reminded me, “Dad, remember as free Americans we are allowed and permitted to talk like socialists, but in socialist countries people are shot, starved, or simply disappear if they try to act and talk like free Americans.” Before we ended up talking about what Linda was making for dinner, he said, “Dad, just remember you can vote yourself into Socialism, but you have to shoot your way out of it.”

Political Corner

Voter Fraud: Government abuse watchdog, *Judicial Watch*, recently sent letters to 378 counties in several states, most notably counties in California, Pennsylvania, North Carolina, and Virginia. It seems that, gee whiz, in these particular counties they have waaaay more voters than residents. How many? About 2,500,000 of them. Dead people are supposed to be removed from voting rolls so they cannot

“accidentally” vote from the grave. It appears as we look into voter fraud further, even our Lord could not “raise the dead” as well as corrupt politicians.

Gun Control: The senate judiciary committee just proposed an amendment that requires ICE to be notified if an illegal alien tries to purchase a firearm. Democrats voted NO. Huh? These same insane politicians are also the ones who voted to penalize United States citizens if they did not purchase Obama care, yet now they want to give it free to illegal aliens.

JUST SAYING!

It seems that, in our retirement, Linda and I are simply not seeing old friends enough. Not only are we are busy every single day, but we are in Arizona quite a bit of the year. And now that I’m out of the business world it seems we just don’t see everyone like we used to.

That is one reason I have been writing *Crapper Chronicles* for these past few years. It is a way for us to stay in touch with old friends and gives me an excuse to keep writing. I hope you enjoy it, but since some of the times I get toooooo opinionated, be sure and let me know if you want off the “Crapper” list.

By the same token, if you want to add someone to the list, just shoot me an email and I’ll get it done. Richard Farnham of Farnham Associates on the Big Island of Hawaii does my layout work and makes sure my email list is kept secure.

Chuck

Office Supplies: Political Hack vs Businessman - Cost Comparison: Fancy gold commemorative pens ordered by Nancy Pelosi to sign Articles of Impeachment = Reported cost \$15,000.

Sharpie pen used by President Trump to sign multibillion dollar US/China trade deal = \$2.

Any questions? I'll wait.

Politicians Say the Darndest Things: Believe it or not these are verifiable quotes these “geniuses” have proclaimed publicly:

Chuck Schumer: “Time and again, we find progressive laws getting struck down. And it’s always-always-the ones the Constitution is against. These right wing judges don’t think for themselves, they just do whatever the Constitution says. And it’s time for that to end.” (*Really? The Constitution has guided our country to becoming the greatest country on earth. Why in hell would we want to stop using it’s guiding principals that have served us so well?*)

Elizabeth Warren: “We need judges to be advocates of progressive laws, not people who will bow to the whims of the Constitution, pitting its extremist values of freedom of speech and freedom of religion against our agenda.” (*Since when are Freedom of speech and religion extremist values?*) She also coined this gem: “Having an abortion is no different than having one’s tonsils removed.” (*Except when a person’s tonsils are removed a heart does not stop beating.*)

Nancy Pelosi in 2019: “You need to vote for the Democrats, otherwise the illegal aliens will lose their rights.” (*What rights? They are here illegally.*)

Joe Biden: “No ordinary American cares about Constitutional rights.” *Not until they lose them.*

AOC in 2018: “Owning guns is not a right. If it were a right it would be in the Constitution.” (*Gee, it seems AOC has never read the 2nd Amendment.*)

Maxine Waters: “The next supreme court judge should be an illegal immigrant.” And this gem: “My fear be that if North Korea nukes us, well then, dat Trump he gonna get us into a war, yeah.” *Send in the clowns.....Don’t bother, they’re here.*

Bernie Sanders: “Social Security has nothing to do with the deficit.” (*How in hell did the Democratic Party let this admitted Communist fool get affiliated with their party?*)

Politics - Follow the Money: You just can’t help following the money. Nancy Pelosi, Joe Biden, John Kerry, and Mitt Romney are all politicians that hate our president for exposing the corruption in Ukraine. Funny, all these same politicians have sons who have made literally millions of dollars by being on boards of energy companies doing business; where else: In the Ukraine.

Not Worth Viewing:

Superbowl LIV Halftime Show: In the 1920’s and 1930’s they called it Burlesque. Through the 1960’s, 70’s and 80’s they called them “Stripper Bars,” and of course people had to be of legal age to even view the nearly naked performers. Now here we are in 2020 and they call these “soft porn” skin shows The “Super Bowl Half-time Show.” Furthermore, they are viewable to anyone of any age with a TV. Wow! My question is, “would you want your young child or grandchild to think this is ok?” Whatever! It’s just another attack on our morality from the overpaid, undereducated, and morally bankrupt Professional Athletic/Entertainment Industry Cartels. I understand that this same famous entertainer also took time in her after show interview to disparage our president. I wonder which of the socialist/communist presidential contenders she is supporting? These entertainment/sports celebrities are the same group of folks who now expect us to idolize an admitted sexual predator basketball player that was recently killed. Many of these same people are closely affiliated with Nike; a company who has their shoes built overseas with controlled laborers working 70-80 hours week, getting paid pennies, so Nike can be profitable enough to pay some of these sports talking heads millions. The same sports celebrities who disrespect our National Anthem then piously speak out against oppression and injustice. I have to tell you folks, if it looks, smells, and tastes like horse manure, you can call it ice cream all you want. It is still horse manure.

Must See Viewing:

The Pharmacist: This movie is a true story largely narrated by many of the actual people who were involved in these events. *The Pharmacist* is a short documentary series Linda and I watched on Netflix. It is the story of how synthetic opioids were not at first considered to be addictive and of course now, after the deaths of literally tens of thousands of people from overdoses and countless ruined lives, we know they WERE in fact HIGHLY addictive. This short series is simply a must view if you wish to have a comprehensive understanding of how this terrible drug mistake was injected into our country.

Everything You’ve Ever Seen About Cuba is a Lie: Four college students, who have been steeped in the popular Bernie Sanders view of how Cuba, though a poor country, is a “benevolent” Socialist/Democratic society, recently booked a trip to go see what they expected to be a wonderful “socialist paradise.” They were totally unprepared for what they found and consider themselves extremely lucky to have gotten home safely and out of their Cuban nightmare holiday without ending up in prison or dead. The video they were able to get out of the country depicts how Cuba is NOT as portrayed by the mainstream media. This is an absolute MUST see for everyone, ESPECIALLY your kids and grandkids. The YouTube video address for the documentary they filmed is: <https://youtu.be/Fz6VJK3mS08>. Take the 15 minutes needed to watch this short documentary. These college kids came to realize you simply cannot put enough lipstick on the Socialist Pig to make it work. Socialism kills incentive, it kills hope, it kills entrepreneurship, it kills freedom. and more than that, it has killed millions of people. To vote for, support, or have anything to do with anything or anybody that furthers this Socialist cancer in our country is simply insane.

Unbelievable: Another TRUE documentary. This short documentary is the story of two dedicated female detectives from the Denver/Ft Collins area who were responsible for tracking down a serial rapist. The story is of two people who didn't just shove a difficult problem under the desk. Thanks to their dogged work, this monster was convicted and put in jail; hopefully for life.

What's News?

Who is Behind Bogus Impeachment Process: Thanks to faithful Crapper reader, Dave Petry, we have tentatively uncovered who is behind the failed impeachment process that used up and wasted untold hours of time and put so many viewers to sleep these past months. Dave said "Just follow the money" and lo and behold both Dave and Crapper are convinced that since the proceedings literally put people to sleep, the likely culprit is none other than "My Pillow" founder and owner, Mike Lindell. If you notice "My Pillow" has been advertising extensively during the entire boring impeachment process and it has been reported Lindell has been literally making a fortune from the sales generated. Even Jack thinks Lindell is, no doubt, behind the whole thing.

Business News: You know how last month I was bragging about having fixed my own windshield chip. Well, about a week after I had repaired that chip I got a BIG rock in the windshield and there was no way that damage could be fixed. Long story short, I put in an insurance claim and Approved Auto Glass (phone number: 480 228 5390, address: 1810 N Rosemont Street, Ste 103, Mesa AZ 85205), installed a new replacement. The reason for this short note is that, while I was waiting for them to install the new glass, they showed me to their own personal home theatre which they have at the facility. They also have a coffee maker, and a deep freeze chock full of Blue Bunny ice cream products. There are magazine racks as well. I settled in, munched a Blue Bunny ice cream bar and watched "A Dog's Purpose." I also enjoyed a nice cup of coffee and very soon, the windshield was installed. From the moment I got checked in by Kristie at the front desk, to when Greg was done installing the new windshield, I was superbly taken care of. Not only that but they tell me that if I ever get another chip small enough to be patched, they will fix it for free. Many thanks to manager Heather and staff, for turning a normally mundane chore into a nice adventure.

Children Separated From Parents: On any given year roughly 2,700,000 kids have a parent in prison, 400,000 kids are in foster care on any given day, 765,000 kids are separated from parents because of these parent's military duties, yet the media focus only on 2000 kids temporarily separated from parents because these parents brought them into this country illegally.

Cycling News: My cycling buddies, Mark Gregory, Roger Tollefson and I, have logged over 500 miles each on our cycles since the first of the year. However, the reason for this little note is not to tell you our biking progress, but to mention that my good buddies are also the type that tend to tell others about a person's cycling mishaps. I'm sure you have heard the saying: "If you want the world to know, just tell Gregory or Tollefson," so I decided to simply come clean and tell *Crapper* readers that the other day, while waiting for a traffic light to change, I got a little off balance and both my cycle and I ended up in a heap right at the traffic light. How embarrassing for you and your cycle to end up in a pile in front of all those cars, and two grinning buddies. Bummer!! Anyway, no biggie, just a skinned knee and a new scratch on the bike: Whatayagonnado!!!! Cycle on dudes!!

Weather or Not?

In the late 1960's, 70's, 80's, 90's: Ecologist Kenneth Watts and Peter Gunter, professor at North Texas State University, predicted the deaths of hundreds of thousands of people from starvation caused by climate change. At the time Watts predicted the world would become unbearably cold. He predicted in 1970 that by the year 2000 world temperature would be 11 degrees cooler. Enough he said to put the world back into another ICE AGE. Major magazines had front page headlines blaring, "A new Ice Age is coming." The headlines on the front page of *Science and Mechanics* magazine were highlighted by pictures of New York and other major cities encased in ice. At least in one regard they were right, in Socialist Communist China during the late 1970's and early 1980's literally millions of people did in fact die. These deaths were caused however by the insane practices and purges put forth by China's Socialist/Communist dictators. A good book and first

hand story about these horrible events are chronicled in *Wild Swans*, and tell the incredible true story of survival by Jung Chang and her family, who were survivors of this largely undocumented modern day Socialist/Communist Holocaust.

In the 2000's: The *Guardian* predicted, in banner headlines that major European cities would be underwater by the year 2020 and Britain would have a Siberian climate. However, in virtually the same timeline, Dr. David Viner, a senior research scientist at University of East Anglia's climate research unit, predicted that, "In a few years, winter snow will become a rare and unusual event."

AI Gore: "By 2013 the Arctic will be Ice Free." Really? Maybe AI (political science degree) should have told that to the boatload of Climate experts who's ship got stuck in the ice this past season. Seems they had to be rescued and flown to safety by an "evil," fossil fuel burning helicopter.

Where the Buffalo Roam

The prairie grass ruffles gently in the breeze,
A prairie scene so few have seen.

Crocus quietly pop their furry soft-blue blooms,
A quick spring thunderstorm on the horizon booms.

From sulky coyotes, the buffalo protect their new born calves,
Massive heads down, circled up in living rafts.

Life goes on, rebirth on the prairie,
Powerful, timeless: invisible to the unwary.

A prairie so remote, and yet so near,
Noisy crows call, quiet movements of deer.

Highways hum, uncaring cars pass by,
Lazy contrails stretch, across azure skies.

In our busy world, we must be wary,
To look and listen; take time to tarry.

Inhale Spring's fresh smell, as the crocus bloom,
And spend some time in Nature's Room.

Watch the herds slowly graze and protect their young.
Take time to listen as nature's song is sung.

Be it the soft munching of grass, by the regal beasts,
Or the sights and sounds; all provide a treat.

And high above; a hawk's sharp screeeee...
Nature's symphony: It pleases me.

Chuck 4/18/19

The Power of Prayer

As stated before in this newsletter we do strongly believe in the power of prayer.

This issue's special prayers go out to Sharon Kuntz in Eureka, South Dakota, and Alan Schneider in Montrose, Colorado. Both are suffering terrible illness and can most certainly use all of our prayers.

Chuck 4/18/19

The Power of Prayer

As stated before in this newsletter we do strongly believe in the power of prayer.

This issue's special prayers go out to Sharon Kuntz in Eureka, South Dakota, and Alan Schneider in Montrose, Colorado. Both are suffering terrible illness and can most certainly use all of our prayers.

At Present: And now of course we have Ms Thundburg, Mr DeCaprio and Joaquin Phoenix (all of who at last report are high school dropouts) flying around in private jets lecturing us on how we are destroying the planet. Furthermore, they get endless, TV, HULU documentaries, and newspaper coverage. Don't you find it odd that opposing views such as Dr. Judith Curry, an actual climatologist; the author of over 140 articles and books, who uses genuine FACTUAL scientific and historical data to absolutely and totally refute the idea that climate change is man caused, gets virtually zero coverage. To me the question simply has to be asked, "Who in hell is controlling our media and poisoning our minds with this utter bullshit?"

Want to Prevent Climate Change? It is estimated that there are roughly 90,000 cargo ships that are used in Global shipping. One Maersk giant container ship emits 50,000,000 times more pollution than the average car in a year.

Want to save the planet? Read the label on the product you are buying. Look for the country of origin. Why would you buy from out of US unless the product is vastly cheaper or better. Furthermore if you must buy from a foreign country why would you buy a product from a socialist/communist country if you could buy it from a country with a free society? If at all possible, why not support countries that support freedom.

Actual Climate Facts: 85% of all Australian brushfires this year have been proved to be caused by deliberately set fires. So far over 200 people have been arrested for arson. Many of the fires have been made worse by the fact that in Austrailia, similar to California, controlled burns to create fire breaks have been outlawed by climate activists. Australian authorities have known for 10 years the threat of a major fire event was not only possible, but was virtually inevitable, but due to climate activism, farmers and authorities have been powerless to build firebreaks, do controlled burns, and take the necessary needed preventative forestation actions. This is not to mention that these current temperatures and rainfall amounts have verifiably occurred many times before in Australia. Historical data proves beyond any doubt that these conditions have occurred many times over the past 100's of years. Long before "MAN CAUSED climate change" was a political football.

Quick Question: Are Jack and I the only ones that have observed that by and large the ONLY people who are panicked about "man caused" climate change are the people in the free world? In case you have not noticed, all of the socialist/communist countries are well aware they did not cause and cannot reverse climate change. They are however, understandably delighted and more than happy to see sports celebrities and uneducated movie stars talk everyone into bankrupting the free world to accomplish what they the socialist/communists could not do militarily.

Polluters: Just a few quick notes on who are the world's greatest polluters: If you are a person who is obsessed with pollution, next time you want to buy something made in China consider these pollution numbers: Pollution in millions of Metric Tons: China 8.8, Indonesia: 3.2, Philippines 1.9, Vietnam 1.8, Sri Lanka 1.6, Egypt 1.0, Thailand 1.0, United States 0.30 If pollution is what is causing climate change, tell me again how it is the United States that is the one destroying the planet?

Coming up next issue:

We at the Crapper are getting so many questions about what Jack thinks, where we got Jack, and what kind of a dog is Jack, we decided to put his story together. Next Issue: Jet Dog Jack's Story - Chapter 1, The Puppy

ChapterJack and I would like to thank you for reading our little newsletter and as usual, remember: we have our families, our friends, our health, and time... the rest is just smoke and mirrors!

Chuck
