## So, I Was Talking to my Buddy, Jack

Jack's life story, in book form, now has 12 chapters. He and I are trying to get all of his adventures written down in the next few months. The book is on the web at [TompkinsPublishing.com](http://www.tompkinspublishing.com). If you would like to follow the book's progress and learn why Jack is known to us as "The World's Most Interesting Dog," click here: <http://www.http://www.tompkinspublishing.com/jet-dog-jack.html>

**Jack on the Presidential Salary:** "Dad, I hear our current president is not going to donate his salary to charity like the previous president did." I replied, "Yeah, he is going to donate our salary instead."

**Jack's Read on Voter Fraud:** "Dad, I see in a recent examination of 950 Georgia military ballots, not only were all 950 ballots 100% for Biden but miraculously all were in sequential order." I agreed it seemed a little odd. The conversation went on with me telling Jack Linda and I had recently attended a meet and greet with our North Dakota congressman. When asked about the problem of voter fraud, with a straight face, he assured us there absolutely was none. Jack and I both wonder if Washington DC is on another planet, because apparently, if you get elected to Congress, you become an astronaut and travel through outer space to another world called "Washington DC."

**Jack on Mail Order Guns v/s Mail in Voting:** "Dad, firearms dealers should be able to sell guns through the mail like they used to." "You know, if the person wants to buy a gun and SAYS he is not a felon, terrorist, of the correct age, and is qualified to buy gun; it should be ok, right?" I replied, "Oh, you mean just like mail in voting."

**Jack on Election Fraud:** "Dad, ignoring evidence of election fraud because the election is already over is like ignoring a murder because the victim is already dead." I agreed, and added that without any doubt voter fraud is the #1 problem in the United States today.

**Jack on Reparations:** "Dad, I'm just wondering how much reparations the decendents of the 360,000 Union soldiers who died freeing the slaves in the Civil War will be paid by the decendents of the slaves they freed?"

**Jack on Illegal Immigration:** "Dad, why don't we simply give all the nice illegal immigrant folks a quick airplane ride back to their home country. It would be far far cheaper, safer, and they would probably enjoy the ride." I said that I didn't know either except possibly, if they went back to their own country it would be harder for them to vote here in the United States for a socialist agenda.

## JUST SAYING!

It seems that, in our retirement, Linda and I are simply not seeing old friends enough. Not only are we are busy every single day, but we are in Arizona quite a bit of the year. And now that I'm out of the business world it seems we just don't see everyone like we used to.

That is one reason I have been writing Crapper Chronicles for these past few years. It is a way for us to stay in touch with old friends and gives me an excuse to keep writing. I hope you enjoy it, but since some of the times I get toooooo opinionated, be sure and let me know if you want off the "Crapper" list.

By the same token, if you want to add someone to the list, just shoot me an email and I'll get it done. Richard Farnham of Farnham Associates on the Big Island of Hawaii does my layout work and makes sure my email list is kept secure.

For past issues of the *Crapper* go to:  
<http://www.tompkinspublishing.com/the-crapper-chronicles.html>

**Jack on Destruction of Monuments:** “Dad, I suppose, since the pyramids in Egypt were built by slave labor they will be tearing them down as well.” After discussing the widespread destruction of statues and monuments we both decided that being white does not make you a racist anymore than being black makes you a slave. But being an idiot covers both colors.

**Jack on Stimulus Checks:** “Dad, instead of sending a stimulus check to these kids, why not send them a coffee pot and a few pounds of coffee.” “Most likely they would actually save money, as many of them sit in the local Starbucks for hours drinking \$7 lattes and bullshitting about how tough things are.” I agreed, but said, many of these folks probably wouldn’t know how to operate the coffee pot.

**Jack on the New Speak:** “Dad, they seem to be renaming and redefining virtually everything.” I replied that renaming items is becoming so common that recently a friend of mine renamed his Smith and Wesson .41 magnum pistol. He now calls it a “Cordless Hole Puncher!”

**Jack on Masks:** “Dad I hear Dr. ‘Foshe’ says we should wear two masks.” I replied, that I had heard he also said if you wear two swimsuits you could pee in the pool. We both agree that neither makes any sense.

**Jack and I on Solid Farmer Gender Logic:** If you don’t think Gender matters, try purchasing a bull so you can produce your own milk. And then go buy a rooster so you can produce all of your own eggs. Let me know how that works out for you. Jack and I are just asking for a friend.

## If You Think These Times Are Normal, Chew on This

**Gender:** If a guy pretends to be a woman we are supposed to pretend along with him.

**Voting:** Election fraud doesn’t exist, and furthermore, illegals, convicted criminals, and dead people voting is ok.

**College Debt:** People who have never been to college should pay the debts of college students who took out huge loans to finance in many cases worthless degrees.

**Immigration:** Illegal immigrants with Covid, tuberculosis, and polio are welcome, as well as illiterate gang members, and terrorists, but doctors and engineers who want to immigrate to the US must go through a rigorous vetting process.

**Presidential Candidates:** People who say there is no such thing as gender are demanding a female president.

**Communists in Congress:** All around the world we see the countries that have gone Socialist, on the verge of collapse. But, somehow, the Democratic Socialists in our country think that Socialism is a great idea. Incidentally, there are over 50 of our congressional members with close ties to the Democratic Socialists. Of course, AOC, Tlaib, Pressley, and Omar are either actual members or have been endorsed by the Democratic Socialists, but speaker Pelosi, Nadler and Waters, as well as many others, have close ties to this organization. For more information: [trevor.newzeal@gmail.com](mailto:trevor.newzeal@gmail.com).

**Mail in Ballots Without Proof of Eligibility:** Why? Mail in ballots come to you how? In the mail, right? Then you cast your vote, and do what? Yes, you refold the ballot and send it back to be counted. Simple. An honest logical person would infer that since the ballot was folded when it was send to you and you refolded it to send it back there should be obvious fold marks on the ballots. Yet, when inspecting thousands of these “mail in” ballots, auditors are finding no fold marks what-so-ever, on thousands of them. Furthermore, strangely, there was a flaw in the printing on these same ballots and it was exactly the same on thousands of them. Once again, a logical person would wonder if a blank ballot had been reproduced, filled in and recorded.

To prevent even the question of impropriety in voting, a logical person would think. “Gee, we have had absentee ballots available forever and they are easy to get.” However, to get one you have to:

- 1 - Prove who you are.
- 2 - Prove that you are in fact an eligible voter.

Then you may cast your vote. This same logical person would ask, “Why in hell do we now suddenly just ‘mail out’ ballots to an address and ‘hope’ the eligible voter sends this ballot back and that the ballots will not be replicated?” This same logical person would say to themselves “If this ‘hope and change’ is working so well, how is it that if we have had roughly 130 million registered voters in the United States for years, and if in most years we have roughly 60 to 70% of these voters actually taking the time to cast their votes, how can it be that in the last presidential election, we magically had over 150 million votes cast?”

Once again, voter fraud is the #1 problem in America today, and it must be dealt with on the local and state level. If it is not dealt with, ladies and gentlemen, we will lose this country to the communists.

**Smarter People?** If you think people today are smarter than people were 50 years ago, consider this: 50 years ago, the owner's manual of a car showed you how to adjust the valves. Today's owner's manual warns you not to drink the contents of the vehicle's battery.

**Which Mask Works:** Remember this; if you are wearing a mask and someone has perfume on. If you can smell the perfume, the mask you are wearing will not stop the Wuhan Flu bug. Why? Perfume particles and the Wuhan virus are the same size.

**Gun Control Chicago v/s Maine:** Chicago, with the strictest gun laws in the United States, has had over 1550 people shot so far this year. Maine, where you can carry a concealed weapon without a permit, is the safest state in the union, proving once again, that a gun in the hands of a decent person is no threat to anyone except bad people.

**No Accountability for Bogus Information:** A few years ago some "scientist" decided that eggs were bad for humans. No matter that humans had been eating them for millennia. Then, a few years later, another "expert" decided that meat was bad. Then, yet another "genius" decided that root veggies, as well, were bad. Again, no thought was given to the fact humans have been eating this food for millions of years. My question is, "Why is it that these people, who want to deny nature and kill whole industries, are never held accountable for their BS rhetoric?"

**Why Chinese Products are Cheaper:** Well, let's see, just a few reasons might be that they have: no EPA, no OSHA, no product liability attorneys (to challenge each and every manufacturing or performance defect), no better business bureau (to report shoddy workmanship and service), no restrictive building codes, no severe coal power plant restrictions or regulations, no employee benefits, and no union contracts. Additionally, this "China is Cheaper," does not begin to take into account the immense social cost to our country in lost jobs, and the utter destruction of our own manufacturing and medical supply sector. Possibly, now, with the Wuhan flu problem and its attendant damage to our supply chain, people will begin to realize the terrible danger of depending on the Chinese war machine to be our source of supply. **Buy American!**

**World's Leader in Fentanyl Production?** Who else? China, of course. Where does it come into the United States? Primarily from Mexico via Cartels and illegals. Cost to the United States? Hundreds of thousands of needless deaths.

**Open Borders?** Check out the information from Sweden. They tried open borders for quite awhile. They are now listed as #2 country in the world in rapes.

**Defund Police and Fail to Prosecute Crime?** In several major California cities there are now gangs of thieves openly robbing stores with no fear of arrest. Why? It is reported if the theft is under \$1000 no action will be taken, so organized gangs send in groups of people, who literally fill bags and walk out. Needless to say, giving away merchandise is not in the business plan of these stores, and being unable to stop these blatant robberies has caused many businesses to simply close up. This, of course, is a huge inconvenience to normal, law abiding people who need a place to fill their prescriptions and get needed merchandise. Crazy as it may sound, instead of arresting, prosecuting, and jailing these criminals, the current administration has proposed legislation to force these stores to stay open. Is this insane or what? There is no doubt that the inmates are truly running the asylum, in not only these California cities, but in Washington, DC as well. If you support such insanity, you too are insane.

**CNN Interviews the Wrong Guy:** Notorious misinformation network, CNN, recently set up an interview with John Coleman, the co-founder of the Weather Channel. Apparently whoever set up the interview did not look into Coleman's background. Coleman is a genuine climatologist and is no supporter of the recent "man caused climate change," that CNN and the socialist left is pushing. Shortly after the interview started Colman looked directly at the camera and stated, "I want your viewers to know there is no man-caused climate change. Not now, not ever!" The flabbergasted interviewer tried to cut him off, but Coleman went on to explain that the #1 reason there is so much information supporting "man caused climate change," is because the funding for research is simply being directed, almost 100%, to researchers who support this theory. As I am writing this Crapper, I am reminded that I am sitting in North Dakota, and back a few hundred thousand years ago, I would have been sitting under an ice sheet over 200 feet thick. Climate change? Of course. Man caused? Nada.

**Wuhan Flu Deaths; Who is BS'ing Who:**

Total CDC reported deaths in the United States, all causes 2017 - 2,813,503

Total CDC reported deaths in the United States, all causes 2018 - 2,839,205 (+20,702)

Total CDC reported deaths in the United States, all causes 2019 - 2,855,000 (+16,300)

Total CDC reported deaths in the United States, all causes 2020 - 2,913,144 (+57,641)

Since there was no Wuhan Flu in 2019, and we are being told 400,000 people died of Wuhan Flu in 2020, apparently all other death rates are waaaay down. But of course, again, if you look that up on the same CDC website, in most cases, they are not. I know of 6 people who have died from the Wuhan Flu, all were very aged or had severe other health issues. The

## The Four Little Skunks

I suppose it was like so many beautiful North Dakota summer evenings. You could smell the fresh-cut hay, the various fragrances, the ripening grains. It was dusk, day's end. The horizon was turning to the deeper blues, pale purple with yellow wisps of cloud above it, and pale blue above that. It was incredibly quiet.

I was jogging, and all I heard were the thumps of my footfalls and the rasp of my breath. I wasn't running fast, just jogging; taking in some fat removal and beautiful scenery at the same time, on an old two-lane road, in and out of wooded areas and alfalfa fields.

Just over a rise and down the other side, ahead about 150 yards, were four little skunks, not even half-grown. They were running in two teams of two up the hill toward me. How cute they were, busily humping along in their purposeful, half-flowing run!

I yelled and whistled and waved my arms, but they just kept right on coming. Finally, about 20 yards from me, they kind of bumped and slid to a stop. Should we go? Should we go back? No, let's go! And on they came again. God, I wanted so badly to just let them run by me a few short feet away, but what if they panicked and sprayed? The smell, the explanations....

So I turned quickly and ran back up the hill. After a few yards I turned and looked back. The front pair had resumed their run in tandem up the hill, following me. The other pair, however, had turned around and was running just as hard in the opposite direction, still in tandem, back the way they had come.

It was such a sweet 10 seconds: so many decisions, so much to learn, and in such a beautiful classroom. I just wish everyone could have a few more moments like that one.

05/90

Wuhan, like all flu, is a very serious disease to this segment of our population and, of course, much caution here is advised. However, the death rate from Wuhan Flu on our children is so low, it is virtually, statistically uncountable. Yet, we are forcing our children to wear masks. The Wuhan Flu is a very serious illness. Kind of like cancer, AIDS, heart disease, and a million others.

## In My Opinion

**Anticipatory Compliance Explained:** The mindless and misdirected "virtue signaling" these days by corporations, so aptly demonstrates the principal of Anticipatory Compliance. Put simply, Anticipatory Compliance is action taken by either a corporation or an individual when their "survival instinct" kicks in. With a gun to your head (and fearing for your corporate or personal life) you will agree to or do virtually anything to please your tormentors and survive. Long ago, during World War II, the actions perpetrated against the Jewish population of Europe, was a prime example of this. Jewish people were forced to wear a gold star, identifying them as Jewish, any time they went out in public. By going along with, and agreeing to do things they know are wrong, many of today's company heads, similar to the Jewish population so many years ago in Europe, feel it's the only way they will be left alone. They are trying to prove they are the "GOOD rich people," by this senseless "virtue signaling." The only difference is that today's corporations irrationally fear, not the power of being shot, but the power of "negative social media." To this end, they not only "wear the star," but feel they must do it eagerly, to survive. What these corporate heads DO NOT realize is that we Americans, who cherish our Freedom and this Constitutional Republic that is the United States, will not be bullied, or controlled by a socialist/communist agenda.

Far from doing business with some "woke" corporation, that is cowing to this socialist bullsh\*t, we are making a concerted effort to do business elsewhere. I guess if *Ben and Jerry's Ice Cream* thinks it's a good idea to defund police, that is their business. But I, and many folks like me, disagree, vehemently! Our electoral system may be flawed, but it is a hell of a lot more representative of what our people want than some unelected company's current talking head. We may not be able to change the minds of the heads of *Coke*, *Ben and Jerry's*, *Delta Airlines*, *the NFL*, *the NBA*, or *MLB*, but I can guarantee you that we can decide what soda to drink, what ice cream to eat, what airline to fly; and completely do without politicized Professional Sports. It will take some time for us "silent majority" people to be noticed, but I guarantee you, we vote with our feet, and our checkbooks, and folks: "We will not be 'wearing the star' and we will be heard."

**Delta Airlines, Maybe too woke?** Seems that when corporate giant airline, *Delta*, tried to tell Georgia legislators how to run their state, these legislators told *Delta* to mind their own business, to the tune of revoking a \$35,000,000 tax abatement. This is good news. Corporations are NOT elected by the people. They should stick to running their own companies and stay the hell out of politics. Folks, it is not up to a giant corporation's current "talking head," to blackmail a state's citizens into doing what the UNELECTED officials of that company want.

**Old Time Outlaws v/s Today's Outlaws:** At a museum, recently, I was looking at the display of a frontier outlaw who had been shot and killed by a Marshall. The picture had been in a newspaper and it showed the outlaw in a pine box with the bullet holes plainly visible where he had been fatally shot. Contrast this famous frontier outlaw, with a career criminal from Minneapolis, who recently died after resisting arrest. A man convicted of 6 burglaries, 3 car thefts, multiple illegal trespasses, 2 violent home invasions, 3 armed robberies, dealing in Fentanyl and Meth, and passing counterfeit money. A man who had a severe ongoing cocaine and alcohol addiction. A criminal who had beaten 4 of his victims senseless. A man who had been arrested 23 times since 1998. A man whose autopsy proved that his advanced heart disease and Fentanyl use, were a huge contributing factor in his demise. When this man died, while struggling with Police who were trying to arrest him for passing yet more counterfeit money, this man, who fought police for nearly a half hour to try and escape being incarcerated once again, is now portrayed as a national hero to many, and his family is purported to have been awarded 27 million dollars. 27 MILLION DOLLARS! And, oh yes, the police were put on trial. People, if you don't think we have problems, you are nuts!

*Thanks for reading Crapper and of course if it is too controversial for you let me know so I can take you off the circulation list. And as always: Remember, we have our family, our friends, our health, and time.....the rest is smoke and mirrors. Chuck*
